LED Panel Light (P6)

- » Dust-Free workshop auto-production
- » DLC Standard & Premium
- » Driver flicker free optional

Same features of Flat Panel Light

- Color Rendering: Ra \geq 80
- Beam Angle: 120° \pm 5°
- IP Rate: IP40
- Lamp Shell Temp Increase: $<$ 20 °C
- Design Lifespan: \geq 50000H
- Working Temperature: -25°C~45°C
- Material: Aluminum alloy+LGP

Color Temperature

0-10v Dimming

LED Troffer Light

(P19/P22)

P19 Series(H90mm)

Features

- UL/DLC approved;
- High light efficiency 110/140lm/w;
- Ideal replacement for traditional troffer;
- Suitable for damp location;
- 0-10V Dimming;
- 5 Years warranty;

Installation instructions

Recessed In Plaster Or Grid Ceilings

Step 1: Remove the ceiling tile from the location in the grid ceiling where the luminaire will be located.

Step 2: Lower the luminaire into the grid structure.

Step 3: Rotate the earthquake clips 90° to prevent the luminaire from falling through the grid. For additional safety, attach optional support cables to the holes in the earthquake clips.

Step 4: Use a screwdriver to remove the wireway enclosure cover, and then pry out one of the knockouts on the wireway cover.

Step 5: Attach electrical conduit to the removed knockout, and then make wiring connections (black to black, white to white, and green to green). See Wiring Diagram.

Step 6: Replace the wireway cover.

Surface-Mounted Installation

Step 1: Assemble three sides of the surface-mount frame by driving screws into the extruded channels.

Step 2: Mount the partially assembled frame onto the ceiling using appropriate hardware (supplied by others).

Step 3: Use a screwdriver to remove the wireway enclosure cover, and then pry out one of the knockouts on the wireway cover.

Step 4: Attach electrical conduit to the removed knockout, and then make wiring connections (black to black, white to white, and green to green). See Wiring Diagram.

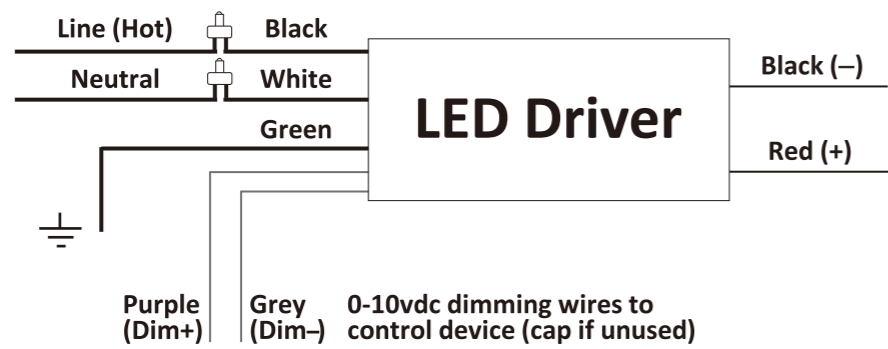

Step 5: Slide the luminaire into the frame, and attach the fourth side of the frame.

Step 6: Finish installation, turn on light.

Warning

- Luminaire must be installed, checked and repaired by an authorized electrician.
- For proper operation, make sure to connect the luminaire to the proper voltage and install it according to these instructions.
- For safety purposes, cut off the power and allow the luminaire to cool before installing or removing it.
- Don't install the troffer light in an unsatble ceiling or near combustille materials.
- Cut off the power if there are any unexpected occurrences.
- Do not alter or modify the luminaire or change any of the components.
- Do not use the luminaire under conditions of direct sunlight, humidity, fog, rain, corrosive gas, dust, or liquid.

LED Linear Highbay (G8)

G8 series

3 modes option

Without accessory

With Grids

With Diffuser

Features

- Rated power:110~300w
- Dimming:0~10v
- 130 lm/w and 50,000H life span
- Installation:chain /cable mount /rod mount

Applications

- Traditional lamp replacement
- Factories / Warehouses
- Supermarkets / Schools
- And more

- ▶ Ideal retrofit new construction solution for traditional downlight fixtures.
- ▶ All-in-one LED retrofit trim, both available with C-channel and general hanger bar.
- ▶ 100-277V input and uniform lit appearance.
- ▶ IES LM-79 and TM-21 certified.
- ▶ CRI:92 typical, SDCM 3Max
- ▶ Light efficacy: 94 LPW for CRI>90, 100 LPW for CRI>80

Suitable for E26 base & Gu24 base also.

► Installation (new construction):

Check all the spare parts in the package (include the lamp and built-in fitting).

Open the hole on the ceiling according to the cut hole dimension, embed the built-in fitting according to the right position.

1 2
3 4

Connect the fixture and power on the built-in fitting with connector, push the spring back to insert the fixture to the hole, release the spring to fasten the fixture to the ceiling.

Finished the installation.

Built-in fitting

2G11 LED tube advantages

Taking the up-to-date constant current technology. The constant current precision up to within ± 3%, high efficiency, low harm-onic, high power factor, etc. It can be used globally with wide range working voltage AC100-277V 50-60Hz.

Remark: Common technical features for 2G11 LED tube

Item No.	CPS-2FT-12	CPS-3FT-12	CPS-4FT-12	CPS-5FT-12	CPS-6FT-12	CPS-8FT-12
(Not include pin)Length	588mm	893mm	1198mm	1498mm	1762mm	2373mm
Power(W)	10W	15W	18W	22W	28W	38W
Luminous Flux(LM)	1250 ± 8%	1950 ± 8%	2340 ± 8%	2860 ± 8%	3600 ± 8%	4800 ± 8%
Carton(mm)	640X205X235 (25PCS/CTN)	945X205X235 (25PCS/CTN)	1250X205X235 (25PCS/CTN)	1550X205X235 (25PCS/CTN)	1815X205X235 (25PCS/CTN)	2425X205X235 (25PCS/CTN)

Remark: Common technical features for T8 LED tube

Diameter(mm)	Voltage (V)	Drive mode	Power Factor (PF)	Lighting Effect (LM/W)	Color Rendering (Ra)	Material	Design Lifespan	Working Temperature(°C)
φ28	AC100-277V 47/63Hz	Switch constant current	≥0.95	130	≥82	AL6063+PC milky white/transparent	≥50000H	-25°C~45°C

The wattage and parameters in above sheet are the standard data for CREP product, special or customer's requirement on watt-age and parameter is also available.

Installation

- Cut off the power before installation;
- In accordance with the direction on the label of led tube, plug in the corresponding section of the direction of access to L, N.

LED tube Wiring Modes

Single end AC input wiring mode

LED Tube (Type B) (F7) (PC)

No Flicker
More Protect Eyes

Technical Data

Item No.	CPS-2FT-14	CPS-4FT-14 12W	CPS-4FT-14 15W	CPS-4FT-14 18W
(Not include pin) Length	588mm	1198mm	1198mm	1198mm
Power(W)	10W	12W	15W	18W
Luminous Flux(LM)	1200 ± 8%	1800 ± 8%	2000 ± 8%	2200 ± 8%
Carton(mm)	620*224*175 (30PCS/CTN)	1230*224*175 (30PCS/CTN)	1230*224*175 (30PCS/CTN)	1230*224*175 (30PCS/CTN)

Remark: Common technical features for T8 LED tube

Diameter(mm)	Voltage (V)	Drive mode	Power Factor (PF)	Lighting Effect (LM/W)	Color Rendering (Ra)	Material	Design Lifespan	Working Temperature(°C)
φ26	AC100-277V 47/63Hz	Switch constant current	≥0.92	120/150 Frosted	≥82	PC Frosted	≥50000H	-25°C~45°C

Customized technical data is available, including power consumption, light efficiency, LED type, size, CRI, etc. The parameter in below table is the regular product specification from CREP.

Installation

- Cut off the power before installation;
- In accordance with the direction on the label of led tube, plug in the corresponding section of the direction of access to L, N.
